

**From Prof. William J. Mitsch, the the editor-in-chief of the journal *Ecological Engineering*.**

*Ecological Engineering, the Journal of Ecosystem Restoration*, will be pleased to accept articles from the 2007 Estonia WETPOL conference for publication in special issues from this meeting. We will be accepting papers in three general areas from the conference, each will be handled by a different member of the editorial board:

- Wetland Restoration in Catchments (Jos Verhoeven, Netherlands)
- Pollution Control by Wetlands (Ülo Mander, Estonia)
- Molecular and Microbial Advances in Wetland Science (Karin Tonderski, Sweden)

After you have prepared your manuscript according to journal guidelines (available on Ecological Engineering web site <http://ees.elsevier.com/ecoleng/>), submit your manuscript to the appropriate subject/editor after you log in as an author on our web page <http://ees.elsevier.com/ecoleng/>

Authors of both oral and poster presentations of the WETPOL2007 are welcome to submit the papers.

The deadline for submitting papers to these special issues is December 1<sup>st</sup>, 2007.

For submission of papers, please use the web site of the journal and choose the relevant name of the special issue.

Review papers should be submitted only after consultation with the editor-in-chief Bill Mitsch ([mitsch.1@osu.edu](mailto:mitsch.1@osu.edu)). Otherwise papers should be on new advances in wetland science and engineering.

According to the new publication strategy of the journal *Science of the Total Environment* (STOTEN), the special issue of this journal based on the materials presented at the WETPOL 2007 symposium in Tartu, Estonia, will consist mainly of review papers. Only a few number of high quality individual papers will be accepted. Before compiling a review paper in one of the topics of the WETPOL2007 please contact one of the four guest editors of the STOTEN special issue: Ülo Mander, Filip Tack, Gijs du Laing or Diederik Rousseau.

The deadline for submitting review papers to the STOTEN special issue is January 1<sup>st</sup>, 2008.
